Video Title: Topbuygo tutorial (order process)	
Storyboard:	
Show the spreadsheet, show the website shopping process, show how to search for products using local images, and then click on the product to purchase.Click on the shopping cart to show purchase	
Copywriting: obviously I have quite a bit of experience in buying hauls I've got a complete buying guide on how to order stuff on topbuygo and get it shipped to you.	
So the first thing you're gonna want to do is use a sign up link.	
I have one in my bio and tons of other creators have them	
This is gonna give you exclusive coupons which will have you saving anywhere from 10 to 50	
dollars, even \$100 depending on how much you order on your packages.	

So the first thing you're gonna want to do is come over to my spreadsheet

which you can find in my bio and find the link for product that you want from there copy it

Head over to Topbuygo and from there you can paste a link in and click enter From there, you'll be brought to the product page

where you can buy it

so here I can see all the product images

I can select the color which I want

and in this case, the product only has one style

and I can select my size by clicking buy now

then you hit proceed to checkout

and then from here

You can see all the payment methods which they have

so you can top up your balance

and you can also use a debit card

or you could use wise which is transfer

and then it's as simple as just hitting pay for order

and just like that my payments complete

Now, once the products eventually arrive in your warehouse

like all the ones I've got here

it's very easy to submit the package

Just select the product and click on submit

and then from here

You're gonna have all the different shipping lines which you can use

Obviously, some are gonna be more expensive than others

My go to thought is always gonna be EMS

and then to get it shipped out

all you do is click submit
